Top Tips: Follow these tips to make your vlog.

Before you record:

Practise reading your script aloud.

- Use a clear voice and expression (sound excited and interested).
- Rehearse with a friend or family member.
- Try to say your lines without reading too much from the page, if possible.

When you're ready to record:

Use a suitable device - a tablet, phone or iPad all work well.

Look at the camera - pretend you're talking to a friend.

Sit or stand still - choose a spot where you can focus and not be interrupted.

Find a quiet space - less noise means better sound on your video.

Smile and enjoy it!
